Junior Software Developer

ABOUT ME

Junior Software Developer in training, currently pursuing a Master's in Full Stack Web Development at Conquer Blocks. Hands-on experience building and deploying websites for real-world projects, including domain configuration, deployment, SEO and analytics.

Developing skills in JavaScript, React, Python, Django, SQL, Git and GitHub, and using AI-assisted development tools such as Claude Code to accelerate development, troubleshoot issues and implement features.

SELECTED PROJECTS

Refrigeración WAS2026–Present

Web Development & Digital Project

Developed and deployed a website for a real home-service refrigeration business: custom domain configuration, GitHub Pages deployment, SEO implementation and web analytics.

refrigeracionwas.comgithub.com/codex2856/Refrigeracion

Barbería2026–Present

Web Development Project

Modern responsive website developed as a portfolio project, focused on frontend development and responsive design.

github.com/codex2856/barberia

Odontología2026–Present

Web Development Project

Landing page for a Cariology professional, presenting and promoting a professional Cariology course.

PROFESSIONAL EXPERIENCE

Order Picker / Reachtruck Operator2024–Present

Bunzl · Netherlands

Picked and prepared customer orders, operated a reachtruck and processed orders in the warehouse management system. Assigned the correct truck by destination, loaded and verified orders, and closed them in the system in a fast-paced logistics environment.

Sorting Line Operator & Warehouse Associate2023–2024

SodaStream · Tilburg, Netherlands

Managed inventory and quality control on the sorting line, operated input and output areas and handled special product processing. Worked as Buddy Trainer, onboarding and training new employees.

Customer Service2017–2022

Hamburguesería Atlántida / Bar Bambú · Tenerife, Spain

Customer service, orders, cash handling and stock management, working efficiently under pressure.

Customer Service2018

Intercafé La Guaira · Tenerife, Spain

Customer service, money transfers, mobile top-ups, photocopying and printing services.

EDUCATION

Master's in Full Stack Web Development2026–Present

Conquer Blocks

Programming, frontend and backend development, databases, Git and GitHub, Linux, artificial intelligence, automation and deployment.

High School Diploma2016

Agustiniano Cristo Rey · Caracas, Venezuela
